TABLE OF CONTENTS

NUMBER 1, MAY 1981

Rickwood, D, Chambers, J A A & Barat, M, Isolation and preliminary characterisation of DNA-protein complexes from the mitochondria of *Saccharomyces cerevisiae* 1

Courgeon, A-M & Cailla, H L, Cyclic AMP and cyclic GMP variations in several *Drosophila melanogaster* embryonic cellular clones cultured in vitro with or without 20-hydroxyecdysone 15

Hasilik, A, Voss, B & von Figura, K, Transport and processing of lysosomal enzymes by smooth muscle cells and endothelial cells 23

Terasawa, T, Miura, Y & Masuda, R, The mechanism of the action of DMSO on the heme synthesis of quail embryo yolk sac cells 31

Bouchy, M, Donner, M & André, J C, Evolution of fluorescence polarization of 1,6-diphenyl-1,3,5-hexatriene (DPH) during the labeling of living cells 39

Risau, W, Saumweber, H & Symmons, P, Monoclonal antibodies against a nuclear membrane protein of *Drosophila*. Localization by indirect immunofluorescence and detection of antigen using a new protein blotting procedure 47

Soll, D R, Bedell, G, Thiel, J & Brummel, M, The dependency of nuclear division on volume in the dimorphic yeast *Candida albicans* 55

Minty, C, Montarras, D, Fiszman, M Y & Gros, F, Butyrate-treated chick embryo myoblasts synthesize new proteins 63

Scott, R E, Boman, B M, Swartzendruber, D E, Zschunke, M. A & Hoerl, B J, Cell cycle-associated modulation in cAMP-dependent plasma membrane phosphorylation 73

Tsuchiya, W, Okada, Y, Yano, J, Inouye, A, Sasaki, S & Doida, Y, Effects of cytochalasin B and local anesthetics on electrical and morphological properties in L cells 83

Giraud, A, Gabrion, J & Bouchilloux, S, Synthesis and distribution of fibronectin in primary cultures of pig thyroid cells 93

Kaplan, G, Plutner, H, Mellman, I & Unkeless, J C, Studies on externally disposed plasma membrane proteins. Trinitrobenzene sulfonic acid derivatization and immune precipitation 103

Wiestner, M, Fischer, S, Dessau, W & Müller, P K, Collagen types synthesized by isolated calvarium cells 115

Kowalchyk, K M, Zuckerman, S H & Douglas, S D, Phagokinetic properties of human mononuclear phagocyte cell cultures 127

Kubota, H Y, Creeping locomotion of the endodermal cells dissociated from gastrulae of the Japanese newt, *Cynops pyrrhogaster* 137

Werner, D, Zimmerman, H-P, Rauterberg, E & Spalinger, J, Antibodies to the most tightly bound proteins in eukaryotic DNA 149

Wilson, S P & Viveros, O H, Primary culture of adrenal medullary chromaffin cells in a chemically defined medium 159

Hino, Y, Minakami, S & Murakami, H, The comparison of Golgi subfractions isolated from mitochondrial fraction with those from microsomal fraction 171

Leibovitch, S A, Tichonicky, L, Kruh, J & Harel, J, Single-strandedness of the majority of DNA sequences complementary to mRNA-coding sites isolated from rat hepatoma tissue cultured cells 181

Kartenbeck, J, Schmid, E, Müller, H & Franke, W W, Immunological identification and localization of clathrin and coated vesicles in cultured cells and in tissues 191

Poliard, A, Szpirer, J & Szpirer, C, The phenotype of triparental hepatoma cell hybrids depends on the fusion sequence used to generate them 213

Berliner, J A, Aharanov, A & Pruss, R, Cell surface changes associated with EGF and insulin-induced cell adhesion 227

Lindmo, T, Protein synthesis as a function of protein content in exponentially growing NHIK 3025 cells studied by flow cytometry and cell sorting 237

NUMBER 2, JUNE 1981

Weiss, R E & Reddi, A H, Role of fibronectin in collagenous matrix-induced mesenchymal cell proliferation and differentiation in vivo 247

Lanfranchi, G & Marin, G, Evidence for the derivation of mammalian somatic hybrids from polykaryocytes 255

Raizada, M K, Tan, G & Fellows, R E, Trypsin-induced alterations of insulin binding, microfilament organization and cell shape in fibroblastic cultures from non-diabetic and diabetic mice 261

Robine-Leon, S, Appay, M-D, Chevalier, G & Zweibaum, A, Proliferation, differentiation and maturation of a mouse epidermal keratinocyte cell line 273

Sieber-Blum, M, Sieber, F & Yamada, K M, Cellular fibronectin promotes adrenergic differentiation of quail neural crest cells in vitro 285

Garvin, A J, Lyubsky, S & Poore, C M, A cytochemical study of GERL in cultured human fibroblasts 297

Cripps, M M & Rutherford, C L, A stage-specific inhibitor of adenylate cyclase in *Dictyostelium discoideum* 309

Garfinkel, M D & Wolfe, J, Alterations in gene expression induced by a specific cell interaction during mating in *Tetrahymena thermophila* 317

Ron, A & Suhr-Jessen, P B, Protein synthesis patterns in conjugating *Tetrahymena thermophila* 325

Surani, M A H, Kimber, S J & Handyside, A H, Synthesis and role of cell surface glycoproteins in preimplantation mouse development 331
Collard, J G, Tulp, A, Stegeman, J & Boezeman, J, Separation of human metaphase chromosomes at neutral pH by velocity sedimentation at 20 times gravity 341
Comi, P, Giglioni, B, Pozzoli, M L, Ottolenghi, S, Gianni, A M, Migliaccio, A R, Migliaccio, G, Lettier, F & Peschle, C, Biosynthesis of globin chains in fetal liver and adult marrow cultures. Comparative analysis of individual colonies derived from early, intermediate or late erythroid progenitors 347
Disteche, C M, Eicher, E M & Latt, S A, Late replication patterns in adult and embryonic mice carrying Searle's X-autosome translocation 357
Nishioka, D & Magagna, L S, Increased uptake of thymidine in the activation of sea urchin eggs. Specificity of uptake and dependence on internal pH, the cortical reaction, and external sodium 363
Lipszyc, J S, Phillips, S G & Miller, O J, Absence of nucleolar dominance in mouse-human heterokaryons 373
Dziadek, M A, Use of glycine as a non-enzymic procedure for separation of mouse embryonic tissues and dissociation of cells 383
McMorris, F A, Miller, S L, Pleasure, D & Abramsky, O, Expression of biochemical properties of oligodendrocytes in oligodendrocyte × glioma cell hybrids proliferating in vitro 395
Walmsley, M & Moses, M J, Isolation of synaptonemal complexes from hamster spermatocytes 405
Lieberman, M A, Raben, D & Glaser, L, Cell surface-associated growth inhibitory proteins. Evidence for conservation between mouse and human cell lines 413
Meda, P, Amherdt, M, Perrelet, A & Orci, L, Metabolic coupling between cultured pancreatic B-cells 421
Kovács, A L, Grinde, B & Seglen, P O, Inhibition of autophagic vacuole formation and protein degradation by amino acids in isolated hepatocytes 431
Golub, D W & Straus, D S, Polypeptide inhibitors of DNA synthesis and cellular proliferation produced by cultured BRL-3A rat liver cells 437

PRELIMINARY NOTES

Robinson, S I, Neklin, B, Kaufmann, S & Vogelstein, B, Increased phosphorylation rate of intermediate filaments during mitotic arrest 445
Sugiyama, K, Kamata, O & Katsuda, N, Fibronectin on the surface of rat mast cells 449
Adler, P N & MacQueen, M, Partial coupling of the cell cycles of neighboring imaginal disc cells 452
Noble, P B & Bentley, K C, Locomotory characteristics of human lymphocytes undergoing negative chemotaxis to oral carcinomas 457
Papamichail, M, Ioannidis, C, Tsawdaroglou, N & Sekeris, C E, Translocation of glucocorticoid receptor from the cytoplasm into the nucleus of phytohemagglutinin-stimulated human lymphocytes in the absence of the hormone 461
Hurle, J M, Lafarga, M & Hinchliffe, J R, The surface coat of the embryonic limb mesenchymal cells during morphogenetic cell death. An ultrastructural study of the chick interdigital necrotic zones (INZ) using ruthenium red and concanavalin A 465
MacMillan, J C & Wheatley, D N, Amino acid pools in mitotic and interphase HeLa cells 470
Aloe, L, Cozzari, C & Levi-Montalcini, R, The submaxillary salivary glands of the African rodent *Praomys* (*mastomys*) *natalensis* as the richest available source of the nerve growth factor 475
Lin-Liu, S & Bondareff, W, Chemical determination of cationized ferritin bound to synaptosomes 480
